Technical Standard:	EN ISO 13688:2013 FprEN 17092-4 (version 2019/03) = FprEN 17092-4:2018	Protective clothing – general requirements Protective garments for motorcycle riders – Part 4: Class A garments – Requirements
---------------------	---	--

Intended use:	Motorcycling: preventive use – correct fitting and positioning of the inner protections are essential.
---------------	--

Size range:	Women's sizes: from XS to 3XL.
-------------	--------------------------------

Technical File:	DC-10650
-----------------	-----------------

Test report:	RCT n° 3748091/E
--------------	-------------------------

Protective functions:	The garment offers limited protection against mechanical risks arising from impact and abrasion in case of a fall while participating in motorcycling activities. Certified incorporated impact protectors provide strengthened protection.
-----------------------	---

Typical test results obtained:	This PPE item has reached the following performance: Class A (*) = the third highest level of protection. EN 17092-4 garments are expected to have the least ergonomic and weight penalties. Protective function is linked to the correct fit of the garment – also the inner impact protectors must be kept in their place: this falls within the responsibility of the user. (*) = The applied Technical Draft document currently provides different levels of protection for garments including protectors/shells: from class AAA (highest level of performance) to class AA (medium level) to class A (lower level); - class B for garments not including protectors / shells = just abrasion protection; - class C for Impact protector ensemble garments.
--------------------------------	--

(see also Test Report)

Marking:	printed on stitched labels and displaying the following information: - CE Marking; - name, trademark and address of the Manufacturer; - item designation (article name and code) + composition materials; - pictogram to indicate the intended use (motorcycling) + nr./year of the Technical Draft of reference + indication of the class of protection achieved; - pictogram "i in the booklet" instructing to read the User Manual; - care label instructions; - size indication; - information about the protectors installed into the garment: on a hangtag attached to the User Manual.
